Ethan DeMelo

Seeking a GIS Technician position with Pape-Dawson

EDUCATION

Texas A&M University — *2024-Present*

B.S. in Geographic Information Science & Technology (Expected 2026)

Coursework: GIS, GNSS, Cartography, Remote Sensing, Web GIS, Geodatabases, Data Analysis.

EXPERIENCE

Lower Colorado River Authority — *Summer 2026*

GIS Intern IV, Transmission Support Services

Produced a 29-page ArcGIS Pro mapbook for an approximately 22-mile transmission corridor.
Plotted deed and easement geometry from metes-and-bounds legal descriptions in Civil 3D.
Collected survey observations of existing boundary monuments using a GNSS rover.
Verified ownership records for roughly 300 landowners against current appraisal-district data.
Uploaded landowner tables with SQL Server Management Studio and updated xMap parcel data.
Reviewed all transmission lines and their spreadsheet to guide corrections across three GIS layers.
Fulfilled 27 of 67 LiDAR DEM requests using KML extents, TXGIO, Global Mapper, and Sycorax.
Assisted with UAS image collection for roof and gutter inspections at LCRA facilities.
Reworked mapbook pages after internal review to correct cartographic, labeling, and data errors.

Texas A&M University — *Fall 2026*

Undergraduate Researcher (OCNG 491; 0 credits; unpaid)

Gathered daily chlorophyll-a NetCDF data and converted it to GeoTIFFs using Python/ArcPy.
Built time-enabled ArcGIS Pro maps and animations from 3,161 daily South Atlantic datasets.

World of Tennis — *2021-Present*

Assistant Tennis Pro / Shop Attendant

Lead coaching sessions and skills instruction for youth athletes in group and one-on-one formats.
Manage scheduling, front-desk support, and customer communication for tennis operations.
Automated regular/overtime-hour and payout calculations in an Excel staff-scheduling tracker.

PROJECTS

Screwworm Capstone — *Fall 2026*

Data Ingestor / Reproducibility Reviewer; GIS Day poster planned

Ingested teammate data, checked reproducibility, and identified precipitation-data gaps.
Identified a hydrologic gap-filling approach and submitted findings for further review.

GNSS + Field Maps Vending Machine Tracker — *Spring 2025*

Collected georeferenced points and attributes with ArcGIS Field Maps and produced maps.

StoryMap: U.S. Population and Hispanic/Latino Concentration — *Fall 2024*

Designed a bivariate choropleth map analyzing county-level demographic patterns across the U.S.

LEADERSHIP

Tempe Hit and Rally (Tennis) Arizona State University — *2022-2024*

President (student club)

Led a student tennis club, coordinated members, and organized training activities and practices.

SKILLS

GIS/Mapping: Esri ArcGIS Pro, ArcGIS Online, ArcGIS Field Maps, cartography, map visualization.
Analysis: Spatial analysis, spatial data quality control, remote sensing, GNSS field data collection.
Programming: Python/ArcPy; coursework in R, HTML/CSS, MATLAB (ASU); JavaScript basics.
Tools: Excel, SQL Server Management Studio, Global Mapper, Autodesk Civil 3D.
